Maryland Official Says Law Passed for Montgomery County is invalid.

pecial Dispatch to The Star,
ROCKVILLE, Md., August 5.-Judge Samuel Riggs, who presides the police court here, and who collects all fines and collaterals in cases of violation of the motor vehicle laws of the state occurring in this county, has received from Col. E. Austin Baughman, state motor vehicle commissioner, a formal request that all such fines and collaterals collected in this county since July 1 be turned over to the state

notor vehicle commissioner.

The last legislature enacted a law creating in this county a police force consisting of a chief and five privates and directing that fines and collat-erals of every description collected in the county be turned over to the county treasurer to be credited to what is designated as the "police fund," and that this fund be applied to naving the court." rolles paying the cost of the county's police system, including the salaries of the judge and clerk of the police court and the members of the police force and all other expenses incident to the maintenance of the system. Law Effective July 1.

The law begame effective July 1, and since then Judge Riggs has, as directed by the law, been paying over all fines and collaterals, includover all fines and collaterals, including those in motor vehicle cases, to the county treasurer to be credited to the fund referred to. The fines, etc.. in motor vehicle cases alone have, it is stated, amounted to approximately \$1.250 since the lawwent into effect. Prior to July I, all motor vehicle fines and collaterals in this control of the contr an motor vehicle fines and collaterals in this county and all other sections of the state were remitted to the motor vehicle commissioner.

According to Col. Baughman's letter to Judge Riggs, Attorney General Armstrong has held that the local law is invalid because its title does not adequately indicate the recommendation.

request.

Within the next few days Col. Baughman will, he has announced, institute proceedings in the circuit court here to compel Judge Riggs to pay to him all motor vehicle fines and collaterals collected in this county since July 1. This will, it is said, precipitate a legal battle which will not end until the court of appeals, which is the state's highest tribunal, has passed upon the validity of the Montgomery county law.

BERLIN DENIES SENDING ARMY MEN TO BOLIVIA

German Officers in South America Declared to Be on Personal Missions

By the Associated Press.

BERLIN, August 5.—In connection with the notification to Bolivia by the council of ambassadors that the employment of German officers as advisers of her navy and army was strictly prohibited, both the foreign office and the Reichswehr ministry say they have not been informed of any active German staff or other officers going to Bolivia in an official capacity. It was said that if German officers are in Bolivia, they must be men who are not under the German government's jurisdiction.

It is common knowledge here that former German officers have left Germany for South America and other countries' ostensibly to seek their fortunes in new professions. By the Associated Press.

Mystery Man of Fiery Stare Bladensburg Road Bugaboo

ter to Judge Riggs Afforney General Armstromp has, held that the local law is invalid because its title does not adequately indicate the provisions of the measures and that therefore, all motor vehicle fines collected by Judge Riggs since July 1 are being unlawfully withheld from the motor vehicle commissioner. In this connection it is stated that coll Baughman was wholly unaware that any such legislation was contemplated until the measure had any such legislation was contemplated until the measure had any such legislation was contemplated until the measure had any complained of its passage, on the ground that it would establish a precedent that might eventually be followed by all other counties in the state and thus put the motor vehicle commissioner's office out of business.
